

## **TOGETHER WE'LL BE OK**

CANNON AND BALL (1984)

Laugh me a laugh, grin me a grin  
And then I know that we can win  
Dance me a dance, joke me a joke  
And blow the clouds away

You've got to play me a tune  
A sing me a song  
And we can help us laugh along  
Just you and me, come on and see  
Together we'll be ok

Open the door, open your heart  
And then we've got somewhere to start  
Just turn around, look what we've found  
Today's a brand new day

You've got to run with me now  
I'll show you how,  
The world is waiting, take a bow  
Show them it's you, what you can do  
Together we two can win

Rock on Tommy, dance to a tune that the kids are playing  
Rock on Tommy, just get up and spread your wings

(Spread your wings)

Follow me through into the sun  
And we can smile at everyone,  
You've got to join in with me  
Then we are free, it isn't hard to do  
(I said) Life is a song, so just sing along  
And then we know we can't go wrong  
Just you and me, come on and see

Together we'll be ok x3
